GRAPHICS GROUP OPERATIONS MANUAL

CHEMICAL WASTE HANDLING

PAGE 1 OF 1

DESCRIPTION: A procedure by which chemical waste is handled and disposed of according to chemical nature and in compliance with State and Local regulations.

ITEMS:

- A. Containment
- B. Classification
- C. Storage
- D. Disposal

Item A: Containment - In order to insure containment of chemicals being used by company personnel, the following building specifications will be met.

- 1. All drains associated with chemical usage will be disconnected from the main septic line. These drains will consequently empty into marked containers. The emptying of these containers is addressed under Item C, Storage.
- 2. The area(s) where drums of chemicals are warehoused will be dyked so as to contain 110% of all warehoused chemicals.

Item B: Classification -

- 1. The classification of chemical waste is in compliance and coincides with Federal Regulations.
- 2. Chemical waste will be classified as either hazardous, non-hazardous, or special waste.

Item C: Storage -

- 1. All chemical waste will be stored in appropriate 55 gallon drums.
- 2. All drums containing chemical waste will be marked according to the afore mentioned classification and dated.

Item D: Disposal -

- 1. All chemical waste drums will be disposed of by a liscensed chemical waste hauler.
- 2. Manifest of disposal will be kept on file indefinitely so as to supply evidence of proper disposal if required.
